Qualitative Data

Regarding Alcohol Use at FEW

- Quote of a senior enlisted member from a recent email discussion of planned celebration:

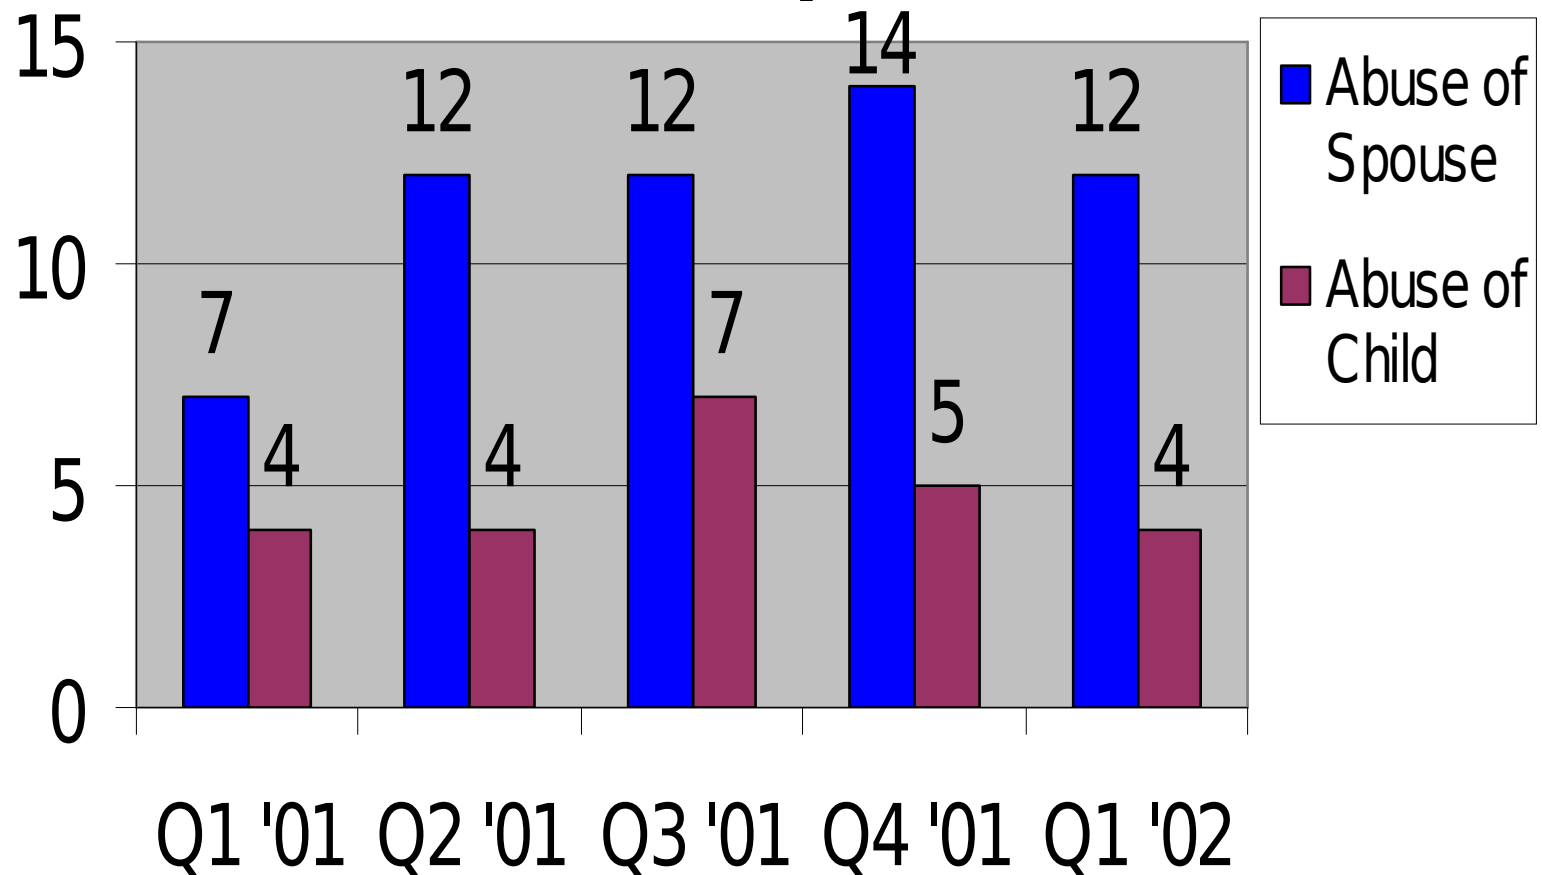

“I don’t know what the rest of the Wing personnel do, but in [my shop] the promotees buy until we’ve had our fill, and then they buy more. I like this tradition and think we should continue this time honored tradition...where would we be if we let tradition slide by the wayside...”

Total Violence Against Others at FEW 2001 to First Quarter 2002

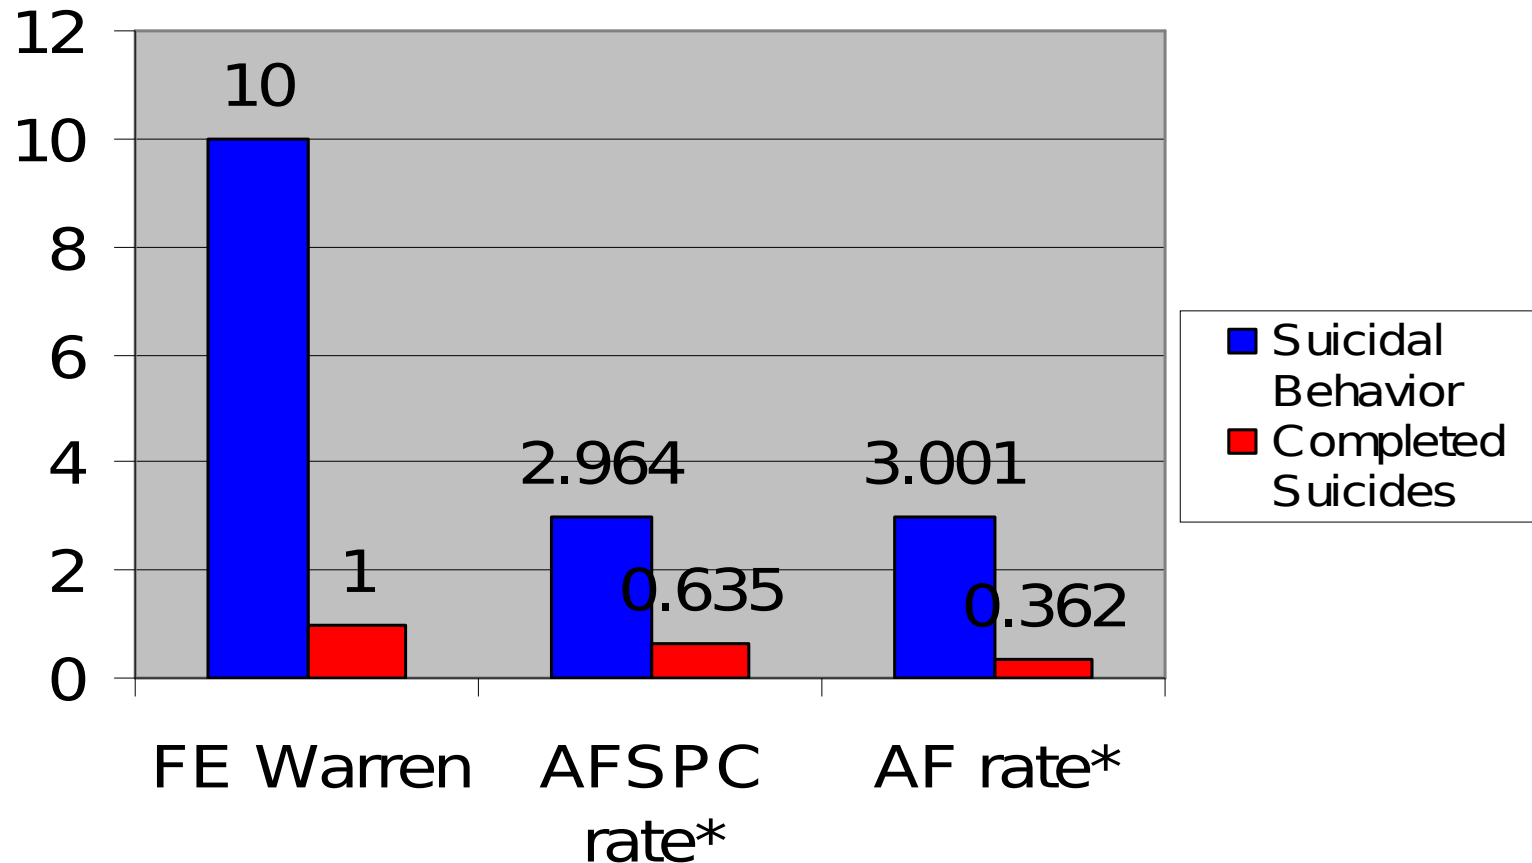

Baseline data for future comparison; mean = 13.2, SD = 4.97

Family Violence at FEW 2001 to First Quarter 2002

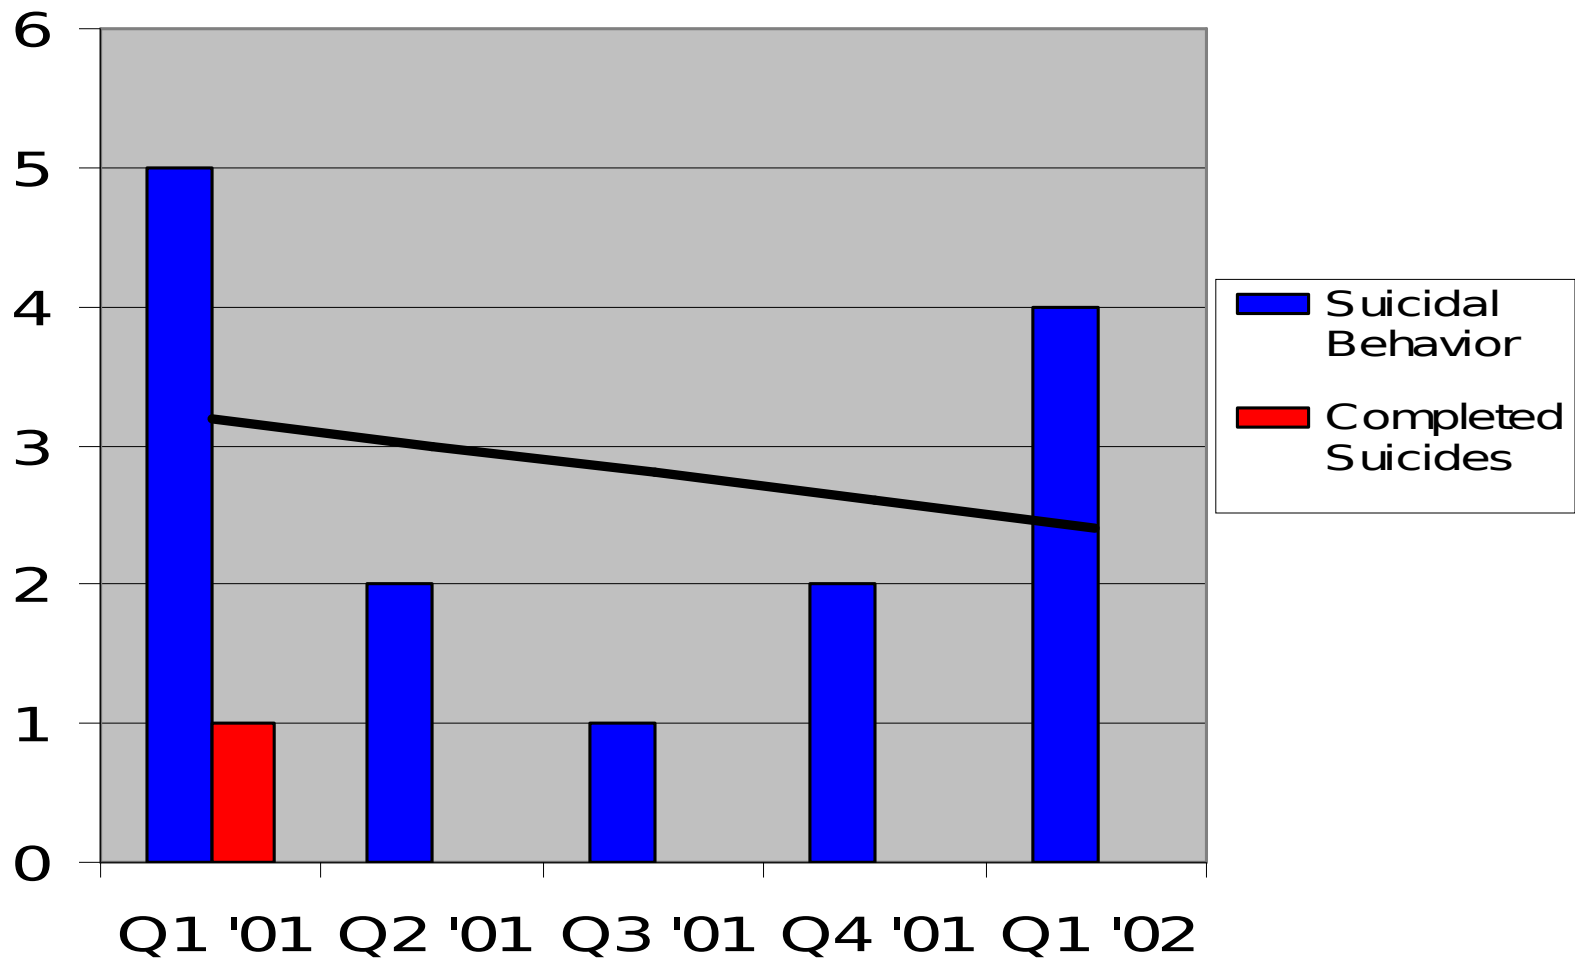

Baseline data; Spouse abuse mean = 11.4, SD = 2.6; Child abuse mean = 4.8, SD = 1.3

Active Duty Violence Towards Self in 2001

*Rates calculated for 3600 AD population at FE W

Active Duty Violence Towards Self at FEW

Issue/Topic:

- Focused study of alcohol and violence at FE Warren compared to other bases

Background / discussion:

- DUI, UA drinking, and suicide attempt rates higher than AF overall, worse in winter months
- Demographics and attitudes about drinking likely key factors

Recommendation(s):

- Unit-run training, “footstomping”, and consistency of culture throughout leadership levels
- Advanced Workshop for commanders and supervisors
- Life Skills briefings targeting times of greater risk- e.g. “101 Critical Days of Winter”
- Continued data monitoring

Status:

- Life Skills annual briefings conducted in February and June, total 58% base population; target late fall and during winter months
- Materials or guidance for Alcohol and Violence educational or mentoring available from Life Skills for unit use
